Upon the Constitution, upon the pre-existing legal rights of the People, as understood in this country and in England, I have argued that this House is bound to revive the Petition under debate.
Caleb Cushing

The participation of the people in their own government was the more significant, because the colonies actually had what England only seemed to have, - three departments of government.
Albert Bushnell Hart

I cannot separate the finances of India from those of England. If the finances of the Indian Government receive any severe and irreparable check, will not the resources of England be called upon to meet the emergency, and to supply the deficiency?

Richard Cobden

There are people in England that claim benefits because they are too nervous to work, so they claim their benefits for anxiety and never have to go out side there free home.

The terrorist attacks of September 11, 2001, as well as more recent attacks in Madrid, Spain, and London, England, showed in a very tragic way just how vulnerable many areas of the world are to these sorts of actions.

Jo Bonner

In my opinion, the form of Government may be different in different countries, according to their circumstances, their wishes, their wants. England loves her Queen, and has full motive to do so.

Lajos Kossuth

In England, we don't have any guns whatsoever.

Simon Pegg

In my judgment, if we had pursued this course, the zones would have been of short duration. England would have been compelled to take her mines out of the North Sea in order to get any supplies from our country.

Don Van Vliet

When I was Governor of Massachusetts, we worked to get Sable Island gas into New England.

Paul Cellucci

It's a unique situation as well because England is a small country, so it makes it easy for the fans to travel. If we play down in London, they get buses and we'll get three or four thousand fans come down. They'll all sit in the same area and show their support for the team.

Claudio Reyna

In Japan, Australia, and England there is such a strong youth culture.

Jonny Lee Miller

People like Howlin' Wolf, Bob Dylan, The Rolling Stones, John Lee Hooker, Nina Simone, Captain Beefheart - all of these artists were what I grew up listening to every day of my life. And there's a very healthy music scene in the west country of England, where I grew up.

P. J. Harvey

I've been working at performing for five years now. I've been working in Australia and Spain and England. When I was only 15 or 16, I was performing in bars; I could have had legal problems, but it's also the only way to get to know what music is all about.

Peter Shaffer

I'm confident in my ability to maintain a career. I don't know if it will be doing either independent films or plays in New England.

Randy Harrison

There are the manufacturing multitudes of England; they must have work, and find markets for their work; if machines and the Black Country are ugly, famine would be uglier still.

Goldwin Smith

If I write in my name to the agents of England and France residing in Asia and inform them that Japan is ready to make a commercial treaty with their countries, the number of steamers will be reduced from fifty to two or three.

Townsend Harris

The Stuart sovereigns of England steadily attempted to strengthen their power, and the resistance to that effort caused an immense growth of Parliamentary influence.

I don't think the Republicans would appreciate the comparison, but they're exactly like the Labor Party in England in the 1970s. They're letting their extremists take them straight down. An actor has to be very, very careful, as one of the most wonderful props - and actors love props - is a cigarette. I do not intend, we do not intend, that any party shall survive, if we can help it, that will lay the confiscating hand upon Americans in the interest of England or of Europe.

Richard Parks Bland

Leaving England was a painful decision, and we still have some regrets about it. However, at that time, the research environment for theoretical chemistry was clearly better in the U.S.

John Pople

They are few in the midst of an overwhelming mass of brute force, and their submission is wisdom; but for a nation like England to submit to be robbed by any invader who chooses to visit her shores seemed to me to be nonsense.

George Combe

When I got there, all the pasta and science stuff hadn't quite caught on in

Robbie Fowler

There is a tone of morality throughout the rural districts of England, which is unhappily wanting in the large towns and the centres of particular manufactures.
